

TECHNICAL DOCUMENTATION

PROCAPECO

STRIPPER FOR PAINTS AND COATINGS

OVER 95 %

BIODEGRADABLE

DESIGNATION

PROCAPECO is a stripper for any type of paint, varnish or coating.

PROCAPECO can be used to remove paint and coatings on surfaces, taking a longer time to act than classic strippers due to methylene chloride.

However **PROCAPECO** hardly evaporates at all whilst working deeply on surfaces.

PROCAPECO emulsifiable, much easier rinsed than classic strippers as it is more than 90 % soluble in water, acid, oils, solvents, alcohol etc...

PROCAPECO contains no paraffin.

CHARACTÉRISTICS

APPEARANCE ----- liquid

COLOUR ----- amber

PH- value ----- neutral

INSTRUCTIONS FOR USE

PROCAPECO can be used on wood, metal, light alloys, concrete etc... without being aggressive

PROCAPECO is ecologically friendly.

The use of **PROCAPECO** on powder paints is not recommended.

PROCAPECO takes longer to act than **PROCANEUTRE**.

PROCAPECO can be used under heat at 70 to 90° C in an ultrasonic bath.

PACKAGING

CONTAINERS 10 Litres 30 Litres 60 Litres 220 Litres

The **PROCAPECO** solvent is powerful and irritant.
Gloves must always be worn in use.
